WINEMAKING: Sherry wines are made from Palomino grapes. They are harvested at the end of August or at the beginning of September depending on the year. Once harvested it is fermented in steel tanks with controlled temperature. Once the fermentation is finished, the finest and most delicate musts are selected for the elaboration of the manzanillas. Initially the natural alcoholic graduation is 12 % Vol. This wine of the year is "headed" with wine alcohol up to a graduation of 15,5 % Vol. The aging process is through biological aging by the Jerez system of solera and criaderas, in American oak barrels of approx. 500 liters capacity.
