WINEMAKING: Sherry wines are made from Palomino grapes. They are harvested at the end of August or at the beginning of September depending on the year. Once harvested it is fermented in steel tanks with controlled temperature. Initially the natural alcoholic graduation is 12 % Vol. This wine of the year is "headed" with wine alcohol up to a graduation of 15,5 % Vol. The aging process is through biological aging by the Jerez system of solera and criaderas, in American oak barrels of approx. 500 liters capacity..

TASTING NOTE: This wine has a dark mahogany colour with shades of amber; it is clean and bright. It has a great aromatic intensity with aromas of nuts and almonds, deep notes of wood and vanilla, which are typical of a long ageing period. It is a dry and biting wine on the palate, warm and velvety, presenting nuances of nuts and wood with a great persistence and long aftertaste.
